

ACCESS PARTNERS

As a leading financial advisor in the Nordics, we create solutions and opportunities for companies and their owners through M&A and debt advisory. Unique and unexpected solutions require rigorous analysis and understanding of financial and business challenges. Therefore, we need extraordinary performers. We do not operate like a bulge-bracket investment bank, but we execute both mid-cap and large-cap transactions. As a result, we offer our team members the opportunity to understand finance tailored to their own development.

”
THE BEST PLACE TO LEARN THE CRAFT
”

We are now looking for MSc and BSc students to join our Stockholm office for a Full-time off-cycle internship during the fall of 2021. We are particularly interested in candidates:

- who are keen on getting straight onto a steep learning curve towards understanding M&A and debt advisory;
- who want to take on responsibility based on ability (rather than based on time spent in an office);
- who appreciate being trusted with client relationships from an early stage;
- who enjoy working for a firm that respects and values your work-life balance.

We are primarily considering Swedish-speaking candidates with more than one year of relevant studies at top tier universities, in Sweden or abroad. We are looking for:

- top class performers with proven analytical skills, ambition and a positive attitude;
- high professional integrity and sound business judgement;
- previous experience from investment banking, private equity or strategy consulting is meriting.

Please send us your application (including cover letter, CV and grade transcripts) no later than **15th February 2021**
to: johanna.lofstrand@accesspartners.com
